

FOLAPROOF-IPA/HGWW

True, High Gloss Photo Base Paper for Ink Jet Printers

A range of true top coated photo base papers for high resolution photographic poster prints, presentation, point of sale, proofing and exhibition panels. This paper is the ultimate in print performance. It offers excellent flatness and colour contrast reproduction even when using high levels of ink, reducing the possibility of material distortion. The paper has high whiteness properties for a wide and more brilliant colour gamut. True photo base paper offers excellent handling, stability and lamination properties. Images dry quickly.

Characteristic

- Suitable for Thermal Ink Jet printer
- Suitable for Piezo Ink Jet printer
- Suitable for Dye Ink
- Fast dry coating
- Good flatness
- High resolution
- No bleeding

Specifications

• Coating frontside	For Ink Jet
• Print side	Rougher side
• Back side	Glossy side
• Base material	PE-Paper
• Width (mm)	1067
• Length (m)	20
• Width (inch)	42.01
• Length (ft)	65.62
• Basic weight (oz)	5.29
• Basic weight (g)	150
• Packing quantity	1

Compatibility

- Not compatible with oil and solvent based systems.
- Suitable for most Ink Jet Plotters using waterbased dye inks.

Handling

- Between 15-30°C and 30-70% r.h.
- A preconditioning period of 24 hours within the printing environment is recommended.
- Avoid fingerprints on printing side.
- Print side = matt white side
- Lamination: cold or heat lamination. To increase UV Protection, laminating is recommended.

Storage

- Store in a cool and dry place at a room temperature of 15 - 25°C and at a humidity of 30 - 60%.
